PASTOR GENERAL SPEAKS IN HONG KONG AND BANGKOK

Pastor General Herbert W. Armstrong wrote the following article Jan. 31 in-flight from Bangkok, Thailand, to Manila, Philippines.

By Herbert W. Armstrong Will bring you up to date on the present trip so far. Sabbath, Jan. 23, I spoke to the brethren at the regular Sabbath service in Honolulu, Hawaii. There was a nice increase in membership since I last spoke there a year before.

Sunday, the 24th, we flew on to Hong Kong, crossing the international dateline. Suddenly it was Monday. It was Chinese New Year in Hong Kong. All businesses and shops were closed. Wednesday evening I spoke about an hour and 20 minutes to about 200 readers of *The Plain Truth.*

There seems to be a real interest there and apparently God has people there He is calling. I left David Hulme [media liaison] there to purchase time, if possible, on television and/or radio in Hong Kong. If we are successful in obtaining a good time on the air there, I feel sure we shall have a new church in Hong Kong within a year. We already have about three members there.

Thursday we flew down around the southern tip of Viet-

nam and over to Bangkok. Friday we flew north to Chiangmai. I was met at the airport by the mayor and other officials, and they supplied a car to a local hotel. At the hotel the king's mountain jeep van was waiting to take me, with Aaron Dean, my personal aide, and the Abbot PhraThepsopon of the Buddhist religion (a rank similar to cardinal in the Roman Catholic Church) up to the king's northern palace atop the mountain. There I had a fourth personal visit with King Bhumbol.

The abbot had arranged the

meeting by telephone from Los Angeles, Calif., after visiting me in my home in Pasadena. The abbot had been much impressed by the splendid performance of students and graduates from Ambassador College, serving in the refugee program to the north of Chiangmai at the Thailand border. These Ambassador men and women have certainly let their light shine in Thailand that people there have seen and warmed up enthusiastically from their good works.

In Hong Kong the newspaper headlines were filled with serious bad news and evil in that part of the world. The Thursday morning Bangkok newspaper headlines were filled with news in big front-page headlines, of serious drug smuggling from surrounding nations across the Thai borders, in order secretly to smuggle such drugs as opium and heroin out of Bangkok ports to other parts of the world.

When I talked with the king he had a new worry. Some 10 years ago, when I first talked with him for about an hour and a half, he pleaded with me to help him. At that time his hill tribes, illiterate nomads, had forsaken raising vegetables and foodstuffs and turned to poppies for the opium traffic. Through the Ambassador International Cultural Foundation (AICF), we provided six portable schools to teach them, and educate them to drop poppy raising and go back to food. Last time I saw the king, six years ago, he told me we had wiped out 90 percent of the

opium raising. But on this visit he had a new problem and worry. We had virtually wiped out the poppy raising of the Thai hill tribes. But now Communists and underground agents were smuggling in opium and heroin from neighboring countries, using Thailand as a means of getting these drugs smuggled out over the world. Even the United States government and the United Nations are seriously concerned, and threatening to use force to stop this drug traffic.

When we returned to the hotel in Chiangmai from visiting

the king, the evening newspapers were off the press, and my picture, landing at the airport, was prominently on the first page. My picture also appeared with a news story in the English-language Bangkok newspaper. At Chiangmai a supreme court justice and other officials of high rank were at either the airport or the hotel to welcome me.

Yesterday, Sabbath afternoon, I held a 1:30 p.m. service for *Plain Truth* subscribers in the ballroom of the Oriental Hotel. About 250 interested readers came, and I spoke for about an hour and 20 minutes. This, as well as the Hong Kong speech, was recorded for television by our own TV crew. Portions of these meetings will be seen on our own TV program within a few weeks.

As I proceed along, I am growing more and more bold in proclaiming the coming Kingdom of God, and Christ's return as the world's only hope. And I think people are more willing to listen to God's truth than they were seven to 10 years ago. As conditions worsen all over the world, Christ's message seems to strike a more responsive chord.

I find it may even be possible to put *The World Tomorrow* on TV and/or radio in Bangkok. Truly we are becoming a WORLDWIDE Church! Satan's opposition will increase, but more and more people are becoming reachable.

MANILA, Philippines — Pastor General Herbert W. Armstrong conducted two campaigns during his visit here Jan. 31 through Feb. 8.

The campaign took place at the Philippine International Convention Center (PICC) Feb. 6 and 7. This was the same hall used in Mr. Armstrong's campaign here in January, 1981.

An enthusiastic and responsive audience overflowed the 4,200-seat convention center during both meetings. An estimated 4,500 people heard Mr. Armstrong each afternoon. About half in the audience were Plain Truth readers. The rest were people who responded to campaign advertisements, or friends and relatives who went along with some 1,000 Church members. Mr. Armstrong was introduced by Professor Marcos Herras, vice president of Adamson University here. Professor Herras introduced the pastor general as "a great religious leader" and "friend of the Filipino neonle."

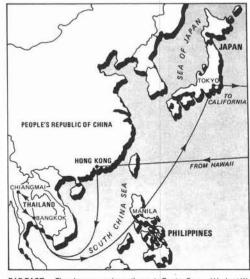

On the first afternoon Mr. Armstrong began by saying how he liked being back in the Philippines because it is "a happy place — full of happy people with warm smiles and handshakes." He then remarked that the world as a whole is not a happy place. "People don't get along with others. Leaders in government can't solve problems." He said.

Mr. Armstrong went on to trace the root cause of all troubles and unhappiness to the origin of human civilization. He explained how the first parents chose the wrong tree the tree symbolic of the knowledge of good and evil, which could only give self-acquired knowledge of physical, material things through the five senses. This, he said, could not give man the spiritual knowledge of how to get along with others and how to have a right relationship with the Creator.

Mr. Armstrong showed that mankind needed to partake of the other tree — the tree of life, which was also a tree of knowledge — symbolic of God's Holy Spirit, of revealed spiritual knowledge from God, handed down through His written Word, the Holy Bible. The Worldwide Church of God is the only church that believes the Bible, he said, and his is the only voice teaching God's truth.

In his second message at PICC the pastor general continued to explain how mankind could acquire the knowledge that would solve human troubles — by receiving God's Spirit through believing the Gospel, repenting and being baptized. Mr. Armstrong explained the meaning of repentance and the true

PASADENA -- "There is a new strain of conservative isolationism in the land. Its proponents, the direct descendants of those who advocated Fortress America in the 1930s and lamented our entry into World War II, would like to see us batten down our hatches and let Europe fend for itself."

So goes the lead editorial in the Jan. 20 issue of *The New Republic*, entitled "Our German Problem." It from the intellectuals to the man in the street — to turn America's back on Europe.

Cynical view toward Europeans

The U.S. News & World Report (Feb. 1) ran an article "Where Are America's Allies?" detailing the reluctance on the part of Western European leaders to follow the U.S. lead in levying sanctions against the Soviet Union and the military government of Poland in the aftermath the Dec. 13 crackdown in Poland.

Far more interesting than the article was the reaction of readers to the article. Of the five letters printed two weeks later, four of them were extremely critical of the European countries. Here are excerpts from three of the letters to show the depth of feeling of the writers:

The same issue of U.S. News & World Report contained a pro-con debate over the question, "Pull U.S. Troops Out of Europe?" The "pro" interviewee responded

that it was at least time to threaten the Europeans with a troop pullout to wake them up to doing more for their own defense.

To the question, "If we withdraw, is there a danger of a nationalistic West Germany rearming, with no NATO control over use of its troops?", the answer:

"That is a disturbing possibility, but very unlikely, since, if anything, West German political and social trends are in the opposite direction

The "con" argument by former U.S. undersecretary of state, Rob-ert Komer, was clear and direct: To pull U.S. troops out of Europe would be the height of folly. He said:

"Western Europe is the greatest prize in the East-West struggle. It has the greatest concentration of economic, technological and indus-trial power on earth. Its gross

national product is greater than ours and far greater than Russia's. That economic strength, added to what Russia already has, would transform the Soviet Union into a super

One of life's great triumphs comes from being able to meet fear and frustration positively. We can expect our full quota of frustrations. They are a part of daily living. Making a mistake is part of the learning process, and everyone is wrong some of the time.

Church finances grow in 1981, reserves build, says treasurer

By Leroy Neff PASADENA — Each month I have been writing a brief article for the Pastor General's Report about the business and financial picture of the Church in the United States. Since the records for 1981 have now been compiled for both the U.S. and international offices, we have pre-pared a report for the Church membership worldwide. In the United States we ended

1981 with a 17.4 percent increase in income over 1980. This increase, though healthy, is not nearly as great as the Work was blessed with in the early years. But, it is a good increase that we should appreciate and thank God for. The cost-of-living increase for the year is now estimated at 9 percent; therefore, the net increase is about 8.4 percent in purchasing power.

It is still necessary to use great care in how the funds are used, so that we might continue in a sound financial condition. Our bank

reserves at the end of the year were substantial and adequate and much improved over a year ago. Many new radio and television stations were added and the Plain Truth circulation increased above four million worldwide for the first time ever.

Leroy Neff is the treasurer of the Worldwide Church of God.

The 1981 audit team from Arthur Andersen & Co. has been working for some weeks now doing preliminary work for the U.S. audit. They gave the standard unqualified opinion in their 1980 audit, which was produced some months ago. You may be interested to know that our major offices are audited by local auditing firms; a few of the small ones are not yet audited.

They now handle advertising and media placement for God's Church in Canada, Australia, New Zealand, Belgium (Radio and Television Luxembourg), Spain, Ecua-dor and most of the Caribbean, as well as the United States.

Print advertising also expanded under Mr. Armstrong's direction in 1981. In many countries, electronic media are government controlled and closed to the Work. Therefore, newspapers and magazines become the main vehicles for delivering Christ's Gospel message. This effort will continue through 1982.

PASADENA — The year 1981 was truly a year of growth in the churches worldwide, both in num-bers and spiritual development. In the United States there were 2,546 baptisms, 20 new churches, 64 min-isters ordained and a 17.5 percent increase in Bible study attendance. An attendance record was set at

Bible study in Pasadena, averaging more than 1,200 a week for the whole year. There seems to be renewed zeal for accomplishment. The headquarters' church is growing steadily in every way. God is

results are similar. Last year pro-duced 1,361 baptisms, 20 new churches and 21 ordinations. Truly, the harvest is plenteous and the laborers are few. But God is granting continued steady growth.

269 teens gather for 27 days at first-ever SEP in Australia

By John Curry LAKE MOOGERAH, Australia - The first-ever Summer Eduna — The first-ever Summer Educational Program (SEP) in Austra-lia took place here Dec. 23, 1981, to Jan. 18, 1982. Two hundred sixty-eight teens from all over Australia and one from Malaysia attended the camp at Lake Moogerah, a two-hour drive from the regional office at Burleigh Heads.

Burietgh Heads. Planning for the camp began in May, 1981, when Pastor General Herbert W. Armstrong approved the purchase of the Lake Moogerah property during his trip to Austra-lia.

Camp director David Noller, a preaching elder in the Brisbane North and Caboolture churches, described the camp as a "tremen-dous pioneering effort." Church members from surrounding areas donated their time to help clear and develop the property. Most of the Australian Office staff spent their annual vacation time instructing in activities from horseback riding and leathercraft to waterskiing and backpacking

Four Ambassador College stu-dents with previous experience from SEP in Orr, Minn., were sent from the Pasadena campus to help with the camp. Juniors Karen Jermakowicz, Susan Sutter and Greg

Williams and sophomore Bertha Brandon assisted as counselors and instructors.

Russell Duke, pastor of the Kansas City, Mo., East church, taught waterskiing, and David Rothwell from the Youth Opportunities United Office in Pasadena taught rock climb-

ing. Local church areas raised funds to send their teens to camp. As a result, most teens in Western Aus-tralia were able to travel 3,000 miles

to Camp Moogerah. Campers were enthusiastic in their praise for the camp. Helena Klassek of Tasmania said, "It

helped me prove to myself that keeping God's laws can be fun."

On Sunday night, Jan. 17, a talent show took place featuring comedy and singing acts by the campers. Awards were presented for excel-lence in various sports and activities. Mr. Noller summed up the success of the camp by saying, "God obviously blessed our efforts, and we need to give credit to both camp-ers and staff in making the camp work."

Sunny 'Sacred Island' site serves as SEP camp in New Zealand

By David Wong AUCKLAND, New Zealand-Motutapu Island (Polynesian for "Sacred Island") was the 1981-82 Summer Educational Program (SEP) site for 95 teens and 40 staff members from throughout New Zealand, Fiji and Tonga for the largest SEP ever held in this country.

Sunny days and occasional evening showers on the coastal site Dec. 22 to Jan. 5 proved ideal for challenging Jan, 5 proved local for chailenging land activities under the direction of Don Engle, pastor of the Hamilton, Rotorua and Tauranga, New Zea-land, churches. Teens and counselors got up at 6 a.m. every morning but on the Sab-bath for a run, swim and Bible study before the kitchen staff served breakfast. After the day's full schedule, campers retired at 9:30.

Sabbaths brought relaxing 10 a.m. brunches before campers attended services, led songs, played Bible bowls and enjoyed sing-alongs Campended with Bible bow

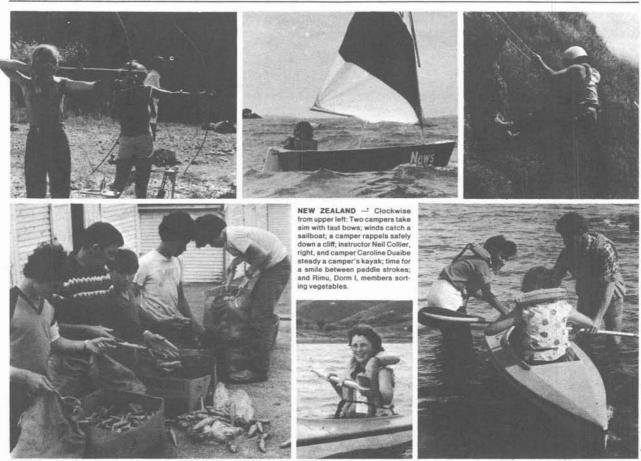

finals, a dance, dorm skits and presentation of the dorm-of-the-camp and camper-of-the-year awards.

New Zealand regional director and SEP coordinator Peter Nathan stressed the educational aspect of the camp to those who attended. The camp was aimed, not only to teach campers skills, but help them learn the standards of dress, language, behavior and attitudes pleasing to God.

The camp's resident teacher and the overall camp director, both non-members, said they were impressed by the campers' and staff's standard of organization, cleanliness, care of equipment and willingness to contribute to improving their camp. They said they look forward to more SEP campers next year.

AMBASSADOR ACTIVITIES

STUDENTS SPEND SABBATH IN COLORADO

Forty Ambassador College students from Pasadena and 45 students from Big Sandy spent part of their college winter break (Jan. 3 to 10) on a ski trip to Keystone ski resort in Dillon, Colo.

After three days of skiing and fellowship with old friends and new, the students headed back to the two campuses Jan. 8. The Pasadena students

stopped off in Grand Junction, Colo., for the Sabbath. Friday atternoon, the students were greeted by Ron Miller, pastor of the Grand Junction and Meeker, Colo., churches, and several other Church members who provided housing for the night.

Activities on the Sabbath began with a slide show about Ambassador College, presented by Randy Duke, student body president. A Bible study by Larry Salyer, pastor of the Pasadena Auditorium A.M. church, followed.

Students were then treated to a potluck lunch prepared by the brethren. After the meal all participated in a sing-along of Church hymns. A few of the Ambassador men led songs.

Sabbath services began that afternoon with a sermonette by Mr. Duke. For special music the 23rd Psalm was sung by all 40 Ambassador students. Mr. Salyer gave the sermon. A few tears and a lot of hugs

and thank yous Saturday evening, Jan. 9, accompanied the students' good-byes to their hosts before the 17-hour trip back to Pasadena. Many students felt that the overnight stay and special Sabbath with the Grand Junction church was one of the most memorable and rewarding aspects of the trip. *Ronda Kellv.*

Four Pasadena Åmbassador College students were chosen to attend the first Australian Summer Educational Program (SEP) Jan. 3 to 16. Three juniors, Susie Sutter,

Three juniors, Susie Sutter, Karen Jermakowicz and Greg Williams, and sophomore Bertha Brandon, left Pasadena Dec. 28. After a 15-hour Infight and a two-hour layover in Honolulu, Hawaii, they arrived in Australia Dec. 30. For the next few days they toured parts of Australia

Australia. Miss Sutter and Miss Brandon were counselors, Miss Jermakowicz instructed in waterskiing and dance, and Mr. Williams in archery.

Williams in archery. The unity of the Australian Youth Opportunities United

(YOU) program is noticeable, said Miss Jermakowicz. During some bad weather the campers, counselors and instructors pulled together to help each other.

All four students agreed the format of the camp there was about the same as at Orr, Minn., with some exceptions. Classes such as horseback riding, bow hunting, hiking and leathercraft were offered. Also, ministers and their wives were counselors. Miss Sutter said the camp was split into two groups: juniors, ages 13 to 16, and seniors, ages 17 to 19.

"The comment 'God's people all over the world are the same,' has more meaning now," said Mr. Williams. "I saw it firsthand."

Miss Jermakowicz said she came home "with a new perspective of what responsibility is." She added, "We shared with them about America and Americans, and

they taught us about Australia." Bruce McNair and Tim Grauel, Ambassador College students serving as ministerial trainees in Australia, also were counselors. They will return to Pasadena in May.

Russell Duke, pastor of the Kansas City, Mo., East church, taught waterskiing, and Dave Rothwell of the YOU Office in Pasadena taught rock climbing. Edie Weaner.

STUDENTS WORK IN MAIL PROCESSING

Three Pasadena Ambassador students joined five others Jan. 11 in the spring semester Mail Processing Center (MPC) program at the center here.

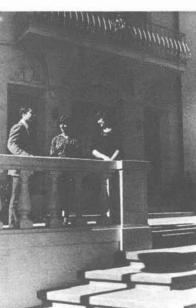

Nolan Boyd, a senior from Dallas, Tex., Mike Cain, a junior from Pasadena, and Phil Hopwood, a junior from Tasmania, will receive "concentrated training in the basic operation of the work," said Richard Rice, MPC director. The MPC program provides practical, on-the-job training dealing with human situations, adding another dimension to the Ambassador student's experience. The program began in January of last year. Clarence Huse, head of the Personal Correspondence Department and coordinator of the program under Mr. Rice, said all the students receive training in telephone response, mail reading, terminal operation, the postal center and personal correspondence, all departments of MPC. They are paid for their work, he added. Each student works between 15 and 20 hours a week, combining his training with actual involvement in whichever area he is learning. 5

The three men replace three students from the fall program, two of whom are now assisting church pastors. The third was unable to continue during the spring semester because of schedule conflicts.

Others in the program are Greg Gaetzman, Alan Olson, Karl Reinagel, Mike Wallace and Eric Warren. Richard A. Sedliacik

INTERNATIONAL FLAVOR AT AMBASSADOR

PASADENA — Travel broadens the mind, it's often said. But at Ambassador College in Pasadena, where one in five students is a non-American, students and faculty can experience cultures from far-reaching corners of the world without leaving the country.

More than 20 countries and nationalities are represented in the 1981-82 student body, providing a different flavor and atmosphere on the campus. For example, do you know the Nigerian viewpoint on the Camp David peace process? Or how Australians usually entertain themselves?

As a natural part of the Ambassador College experience, the international students help their American counterparts (as well as other international students) understand the cultural richness on this earth.

Often, international students arrive at formal campus social events in their national costumes. At Ambassador and Women's Club meetings, students hear firsthand the problems and pleasures of living in other parts of the world. Classroom discussions often reveal interoent signary for the world. Classroom discussions of God's laws by people living in other lands, and students learn to appreciate the freedoms granted in the land where God chose to establish His colleges. Jeremy Rapson.

AMBASSADOR COLLEGE DORM LIFE

PASADENA - Dorm life. To

students outside Ambassador College, this often means blaring stereos, loud parties, concrete walls with grafiti scrawled all over, one ill-equipped bathroom for 30 people and other nuisances.

But at Ambassador, dormitory life is different. Imagine living in a converted mansion overlooking the Ambassador Auditorium and its spacious mall. Instead of barren, hotel-style buildings with long halls and cell-like rooms, Ambassador students spend their academic lives in spacious living quarters with homelike atmospheres.

A sense of quality is omnipresent throughout campus dormitories. Many dorms have crystal chandeliers, winding staircases and oil paintings to help students think about and enjoy the fine things God has made available.

I live in the Terrace Villa dormitory, one of the largest women's dorms, with 27 other coeds. In this one building, we have one big "family" with representatives from three countries and 14 states.

Have you ever tried to explain the meaning of American slang, for example, "pig-out," to an international student, or struggled to keep a straight face while another student (whose native language is not English) mistakenly sprays her hair with deodorant instead of hair spray?

Often, important lessons in culture, geography and history are learned when an international student shares her photo album with the dorm.

A common sight on any student's desk is a calendar — more than likely crammed with important dates, goals and Bible verses. Other personal knickknacks are arranged all over the desk — revealing much about interests, hopes and dreams. Personal notes, photos and mementos provide a running history of the student.

Dormmates learn to work and live together through varied activities. Through the guidance of a student residence assistant (who works with the college administration), Terrace Villa has picnics, pizza parties, beach cookouts, Biblestudies by faculty members with men's dorms, and trips to nearby amusement parks. Other dorms go on weekend camping trips with faculty chaperons. Imagine Sabbath services under a crystal blue sky in California's High Sierra Mountains, breathing crisp, pine-scented air while listening to a minister speak about God's creation.

STUDENT LIFE IN BIG SANDY

BIG SANDY — In the fall of 1981, 192 students arrived on the Big Sandy campus of Ambassador College to assist with what Chancellor Herbert W. Armstrong called "a new beginning" — the reopening of the school here as a two-year, junior college.

For the students, it has been a challenging school year, full of opportunities and excitement.

"A much larger percentage of the students have responsibilities in planning student activities," said Dean of Students Ronald Kelly. "Leadership-type opportunities are thrust upon them at an earlier stage than in many colleges."

Leadership-type opportunities are thrust upon them at an earlier stage than in many colleges." One advantage is the school's relatively small enrollment. Most students feel a real sense of camaraderie here.

"All the students know each other well," said freshman Kerrie Miles, 20, of Seattle, Wash. "We're like one big family."

Students can get to know faculty members on a personal basis. Student Body President Mark Mounts, a 20-year-old sophomore from Hutchinson, Kan., said the closeness that has developed between the students and the faculty "has made the students realize that the faculty members really care and are con-

ON-CAMPUS EMPLOYMENT

PASADENA - While learning about God's way of life academically and socially at Ambassador College students also apply what they learn through on-campus employment.

Students learn to give of them-selves in varied ways: ushering at con-certs in the Ambassador Auditorium; landscaping the grounds under the direction of the Landscape Depart-ment; answering telephones for the Work's Wide Area Telephone Ser-vice (WATS) lines; tutoring students at Imperial Schools.

On campus, grass and dichondra (a ground cover) must be mowed, weeds pulled, carpets vacuumed, trash dumped, papers typed. Students do their part in keeping the campus a well-polished jewel—contributing to the high standards set by Chancellor Herbert W. Armstrong.

Students also learn to give through the volunteer program, Outreach. Ambassador men and omen visit the elderly and shutins, sponsor entertainment projects and tutor preteens and handicapped children. Students remark that they receive more even as they try to give as much of themselves as possible — such is the way of life taught and lived at Ambassador. Alvin Thibeault

study, I glanced at the photographs arranged on my desk and reflected a bit. What a great summer last year! I was one of 26 students selected

for the archaeological excavation project in Jerusalem. Just looking at the picture of students digging in the City of David brought back memories of the blazing, hot air. I hadn't realized before how hot a morning could be. I smiled as my eyes moved to

another photo — me posing with an Israeli soldier at the Knesset — Israel's parliament. His automatic rifle was right between us.

Then there's the photograph 1 shot of the Ambassador College group after our last day of digging. While I was trying to get everyone to pose, other diggers had climbed up behind the group and doused everyone with water balloons.

Remembering my experience at the dig made me realize once again how different life at Ambassador College is when compared to other universities. After attending anoth-er college for a year, 1 remember coming to Ambassador and being surprised to see how the Bible does form the basis for all education and how clear everything becomes when knowledge is based on an understanding of God's Word.

I remember, too, my initial amazement when we opened Bible classes with prayer. Never would I have thought of such a thing at my previous college.

Many other aspects of Ambassa-dor College life seem commonplace now, but were new and different when I first came. At my former college it was a struggle to keep the Sabbath. Here the dormitories rotate preparing and serving meals to the student body on the Sabbath. Breakfast on the Sabbath is always fol-lowed by a group of students singing hymns and enjoying happy fellow-ship. Always honored, the Sabbath is a special day at Ambassador.

One of the most striking differ-ences between Ambassador and other colleges is the unity and sense of direction the students have. Men

and women from all walks of life, from all parts of the world, assemble at Ambassador, but all focus on the same common goal — learning how to live God's way of life.

College life at Ambassador is not a world of intense academic competition or looking for good times, but a positive environment for character growth and development. Sylvia Owen

NEWS OF PEOPLE, PLACESE EVENTS IN THE WORLDWIDE CHURCH OF GOD

PASADENA — Mailing of Pas-tor General Herbert W. Arm-strong's semiannual letter in Span-ish brought a "tremendous response," according to Keith Speaks of the Spanish Department here. This was the first time that one of

Mr. Armstrong's semiannual letters had been sent to the Spanish-speaking areas, said Mr. Speaks, Previously, the cost of such a mailing was prohibitive, but by using several more economical methods the mailing was possible. Costs were reduced 80 percent.

Responses are arriving at a rate of 80 to 100 a day from the United States, a response rate of about 24 percent. Mr. Speaks estimates the

response from areas outside the United States will be well over 30

percent. Response from Costa Rica is 40 percent.

Part of the reason for the high response may be that Spanish speaking members and co-workers have not previously received Mr. Armstrong's semiannual letters. Mr. Armstrong is held in high regard for his knowledge, understanding and wisdom, he said. This has previously influenced the response to Mr. Armstrong's "Per-sonal" column in the Spanish *Plain* Truth, La Pura Verdad.

Snow, ice cut church attendance

By Jeff Zhorne PASADENA — Reports from around the nation showed that Janu-ary was one of the coldest months ever. Despite power shortages, frozen water pipes, hazardous driving condi-tions and 10-foot (300 centimeters) snowdrifts, brethren have been spared major disaster during wind, snow and ice storms and record-setting subzero temperatures

Winter storms struck Europe ising Sabbath services to be canceled in some areas.

Ministerial Services here re-ceived reports from some areas of wind-chill fact. is up to minus 120 degrees Fahrenheit (minus 84 degrees Celsius). Church attendance nationwide dropped because of adverse weather conditions. "Many brethren are getting cab-

in fever because they've been indoors so long," remarked Keith Thomas, pastor of the Waterloo and Mason City, Iowa, churches. As of Jan. 26, Mr. Thomas said

that temperatures were above freez-ing only one day this year. Sabbath services in Waterloo were canceled Jan. 16 and 23.

Dave Fiedler, pastor of the Appleton and Wausau, Wis., churches, said he canceled Sabbath services three weeks in a row in Wausau. "Up to this year, we've had

to cancel services only once in four years," Mr. Fiedler said.

With wind-chill factors of from minus 80 to minus 100 degrees Fah-renheit (minus 62 to 73 degrees Celrennett (minus 62 to 73 degrees Cer-sius), according to Roy Holladay, pastor of the Chicago, III., West and Northwest churches, services were canceled Jan. 16. "Most of the brethren came through pretty well though," he said.

Bitter-cold conditions prevailed in the southern portion of the United States as well. Roger West, pastor of the Tupelo and Columbus, Miss., churches, reported flooding, icy roads and the coldest weather he has ever seen. Three outlying Bible studies were canceled for two consec-utive weeks. "We have no snow equipment around here," remarked Mr. West. "We just wait for the sun to melt the snow and ice."

Ken Martin, pastor of the Birmingham and Jasper, Ala., churches, described a devastating week Jan. 18 to 22. Major cities were knocked powerless for up to four days," said Mr. Martin. "People went to National Guard shelters for heat."

For the first time in three years, Sabbath services were not con-ducted in Kalispell, Mont., Jan. 16, according to pastor Bill Quillen

Paul Suckling, a minister in the St. Albans, England, church, reported that "many church ser-vices were canceled on the Sabbath of Jan. 9 because for the most part members were immobile, unable to leave their homes."

Elsewhere in Europe, winter storms during January and Febru-ary struck in Belgium and France, according to Bernard Hongerloot, a minister who works in the French Department in Pasadena.

"Reports from Belgium said tem peratures dropped to minus 20 degrees Celsius [minus 4 degrees Fahrenheit],"said Mr. Hongerloot. "Similar temperatures were in France.

Jean Carion, pastor of the Brus-sels, Belgium, and Nancy, France, churches, canceled January speak-ing tours and Bible studies in eastern France because of snowfalls.

Question

(Continued from page 2) Europeans of being too timid to "punish" the Soviets and the mili-

tary junta in Warsaw over the crackn in Poland. de The Europeans, in turn, claim

that the United States is acting naively in the whole affair. They were embarrassed when the U.S. government sponsored a 90-minute-long Hollywood-style showbiz piece entitled "Let Poland Be Poland." American officials do not appear

to understand the consequences of trying to alter the status quo in Europe. This was forcefully argued in another New Republic piece, "Poland and the Ghost of Yalta." Author Ronald Steel had this to say "Any radical political change in Poland would have incalculable consequences for the political balance

in Europe. To alter this status quo is to reopen "the Germany question" - to the dismay of both the United States and the Soviet Union. Author Steel continues:

"Like it or not, the division of Europe is, for the foreseeable future, a fact of life, one that reflects the interests of both superpowers. It

cannot be resolved by force. Any dramatic change could wreck both alliance systems. If Poland suddenly pulled itself free from Russian control, the regime in East Germany would be isolated. Bonn, which has ignored the dream of reunification because it seemed so unattainable, might then be tempted to look East. What German political leader could afford to turn his back on the 'lost territories' if there seemed a hypothetical chance of regaining

them? "Bonn's hard-forged links to Market NATO and the Common Market would be called into question. The ominous specter of a unified Reich would suddenly take form, bring-ing unknown dangers into European politics. With the German question reopened, all the institutions we have taken for granted would be called into question. NATO would in all likelihood collapse, and with it the major instrument for American control over Western Europe. "If we are to encourage the de-

In pushing for Poland's freedom and threatening to pull troops out of the Continent, is America creating its own "Frankenstein Monster" in the heart of Europe?

Note: It was learned that the 50 foot television screen in the main downtown square in Melbourne, which was to carry Mr. Armstrong's World Tomorrow program to lunch-time crowds, was unexpectedly closed. The decision was apparently prompted by large finan-cial losses to the operators of the screen projected over the year ahead. Prayers are needed that God will open alternative media doors in Melbourne, which, although Australia's second-largest city, has no radio or television coverage.
